## Socialism Or Free Enterprise—Which?

More than 85 per cent of the investor owned electric light and power companies of the United States, in a joint statement, define their attitude toward government power "authorities" like the Tennessee Valley, Missouri Valley, and others:

1. All the purposes of a proposed dam should be clearly defined in legislation; that is, whether it be for flood control, navigation, irrigation or power.
2. Power produced at government projects should be sold to existing power systems without special privilege or discrimination.
3. Savings resulting from such power sales should be passed on to the consumers under state or other regulations.

4. The Federal government may properly regulate business, but should not operate it.  
If government continues expanding in the field of power production, it will also go into other lines of business.

If we want to work for ourselves as free Americans have done in the past, and keep the government servant instead of our master, then the position taken by the electric companies is well stated, and should be supported by all citizens who prize personal liberty and freedom of individual opportunity.

It is no longer a case of just keeping the government out of the field of electricity. Instead, it is a case of deciding whether we want to see the field of private enterprise closed and the doctrine of socialism established.

## AUTO STAMPS TO THE DISCARD

Among the cuts to be made in the taxes of 1946 will be the elimination of that \$5 government car tax, which was so objectionable to most every car owner. Many car owners refused to purchase these stamps the present year, taking a chance of Uncle Sam's "law paw" calling on them for non-compliance.

## THE FUTURE BECKONS

With a Busy Hand!

Now that the war is over, it's time to open the doors to the days ahead. They're going to be busy, exciting days.

For one thing, the Telephone Company plans the greatest expansion program in its history in Florida—aimed at meeting the telephone needs of a great state.

It means providing telephones for all who have been waiting for them. This is one of our first jobs! A greatly expanded telephone program for our farm friends is also in process. Expansion of long distance service is being scheduled too. It will include the installation of coaxial cables to handle more calls with speed and convenience for you, and provide more facilities for that exciting visual art—television. A mass of construction is to be done and a new service to motor vehicles is also in the offing.

Those are the high spots. They have been ideas on the drawing board. They will become realities as materials become obtainable. There will be the marshalling of property's Three M's—Men, Money and Materials, and the forces that brought Florida and the Telephone Company to their present position, that was then the friendship and confidence of the public.

This expansion program calls for the expenditure of millions of dollars in Florida. And telephone people like the idea of putting money for expansion into Florida, contributing to the general welfare and prosperity of the state, through its men and women, its wage-earners, its families, its communities.

Our optimism for the future is based on the record of the past. Florida and the 5125 men and women of the Telephone Company have grown up together, and watched each other grow. Now, in the days ahead, the same friendly relationship will continue. The future beckons with a busy hand.

### Mrs. Ida Hubbell Passes This Life

After a period of some weeks of failing health, Mrs. Ida Gertrude Hubbell, the 82 year old wife of Judge G. A. Hubbell, passed from this life on Monday afternoon. Funeral services were held at the Mirell-Simon Mortuary in West Palm Beach on Wednesday afternoon with burial in Hillcrest cemetery in that city.

Mrs. Hubbell has been a resident of Belle Glade since 1930 and had a large circle of friends. She was a member of the Community Methodist church. She is survived by her aged husband, Judge Hubbell and one sister, Mrs. Alice Lingham of Lindbrook, Long Island.

### Cane Harvest Started

The annual sugar cane harvest of the U. S. Sugar Company, which has some 30,000 acres, began its harvest on Monday and work will continue till completed. Company officials intimate that this year's crop will be a bumper one.

### Assigned to Pastorate

By recent action of the governing body of the Nazarene church in session at Miami, Rev. C. H. Moore was assigned to the pastorate of the Pahokee church.

### GOVERNOR CALDWELL

(Continued from page one) necessary to hold and divert the waters.

It is anticipated that proper representation to the flood control soil and water conservation

### LEGAL NOTICES

**NOTICE OF INTENTION TO REINTER VICTIM'S NAME**  
Notice is hereby given that the undersigned, under the provisions of Chapter 28333, Laws of Florida, Acts of 1931, will register with the clerk of the circuit court of the first judicial circuit, Florida, upon receipt of proof of publication of this notice, the fictitious name, as well as

bureaus and others will result in the matching of funds, with those raised locally.

The request also suggested to the Governor that roads might well be an integral part of the entire undertaking. In his discussion of an immense road project for post-war attention, the Governor stated that he had instructed his Road Board to disregard all road projects except those forming a part of a state-wide system of roads. The only exception, he stated, is to be farm-to-market roads, and he believed that progress is being made towards some mutual agreement that will allow more of these in Florida.

The RDB Water Control Committee has a sub-committee already working on a simple, readable and understandable brochure on the proposed plan for reclamation to each landowner in the two affected areas. Meetings will be held and an attempt will be made to solidify sentiment on one project.

With the additional information gained by the Governor's visit, and his expressed favorable attitude, the feeling prevails that a great deal of progress has been made towards some valuable changes in the conditions of the two canals. Glades members, and the entire county for that matter, are remembering the effective work done by the RDB on the Experiment Station budget, feel that their efforts so far towards relief on water control point a way to better times. Other reports of accomplishments and plans of the RDB in its county-wide efforts pale after the Governor's speech and were dismissed by vote warmly.

More than 60 people from the Glades were in attendance at the dinner.

### TWO ESPECIALLY APPETIZING REGIONAL FAVORITES

### BARBECUED SPARE RIBS

A "hearth" of 3 or 4 pounds of pork ribs, cut in pieces, is spread in a roasting pan, meatier side up. On each place place a very thin slice of onion and a thin slice sweetened lemon. Roast for 30 minutes in a 450 degree oven. Bring to a boil a sauce made of 1 cup ketchup, 1/2 cup of Worcestershire sauce, 1 teaspoon chili powder, 1 teaspoon salt, 1 dash Tabasco Sauce. At the end of 30 minutes, turn oven down to 350 degrees and pour the sauce over the ribs. Bake one hour longer. Baste and "saute" the ribs in the sauce every 15 minutes during the hour. If the sauce gets too thick, add more water. Serve with rice or wheat bread and frothy, tangy JAX Beer.

JAX has mailed \$5.00 to Mrs. A. H. French, Belle Glade, Florida, for this interesting regional recipe. Send us your regional recipe suggestion. If published, \$5.00 will be paid for its use. JAX Brewing Co., Jacksonville, Florida.

and  
**JAX Beer**

When your appetite's yearning for something especially satisfying and tasty, try Barbecued Spare Ribs and golden JAX Beer for an outdoor supper. Both of these regional favorites embody the tangy goodness that's characteristic of South-eastern food and drink.

JAX, the regional Drink of Friendship, has a special something of its own, because it's brewed to suit the special tastes of the region. JAX is a truly great regional beer, mellow and mild and pleasing. Try JAX today and you'll agree that it's a premium beer in quality although not in price.

Say JAX!  
You can't buy

## Road Work Started

N. N. Stelling reports he has started a dragline to work on the new farm road leading from Okechobee east via the Boles Canal. The new road will run up farming land on both sides of the Boles Canal by giving an outlet to Road 26.

## Home Coming At South Bay

Rev. F. Warren Capell, former pastor of the South Bay Baptist church, now engaged in State Training Union work will be the speaker at the annual Home Coming service at the church on Sunday, Oct. 28. The service will begin in the morning and continue through the day with a picnic luncheon served on the church lawn during the noon hour.

The Home Coping service will follow the week of Training Union Enlargement Campaign in season this week. Rev. and Mrs. L. M. Mobley of Raleigh, N. C. are in charge of this work. The opening service was on Sunday evening.

## FALL CROPS

Continued from page 1  
season in 1944 there was 25,000 for fall beans; 3,000 for celery and 4,000 for potatoes. However, owing to some growers planting late celery, who had not intended to do so, the celery acreage for the 1944-45 season jumped to 4,100 acres.

The 1944-45 cabbage crop for the October-December period will be negligible, but Mr. Owen estimates the first quarter of 1946 will see about 6,000 in cabbage cultivation with harvest in the first three months of the year. Should the Texas cabbage crop be frozen out or severely damaged and, Texas growers

control the market on this commodity, then there might be considerable more belated planting of cabbage in the Glades area. Our bean crop in the Glades is coming on finely and hope is expressed that the yield will be large for the acreage planted. J. L. Warren, manager of the state market at Pompano, has reported to State Market Master Wilson, that conditions in Broward and S. Palm Beach counties never looked better for a fall crop for beans, peppers, lima beans and egg plant.

Early fall crops over in the Wauchula, with cucumbers leading, are now on the market platform with a very fine quality of vegetables, as the early season has been most favorable over there.

The estimates above quoted do not take in account any crop production in the lower east coast farm section of Palm Beach county where it is expected that the winter harvest will be considerable with favorable weather conditions. Administrator Speer of the local Extension Board, stated that

the farm labor situation is looking a bit brighter, as around 150 Bahamians are to be brought in next week and stationed in tents at Camp Okechobee in the same location used last year. That transient labor has about filled Camp Osceola and the house car parking area there. This labor will be apportioned to the farmers and packers in this immediate area.

In the north end of the Glades little planting has been done since the hurricane and vegetable production will be very much curtailed there over other years.

## ★ NAVY DAY ★ OCTOBER 27, 1945 ★

*Well Done, NAVY!*

One hundred and sixty years ago this month, the American Navy was founded by act of the Continental Congress.

For more than a century and a half, the Navy has been our first line of defense. To write the history of the Navy is to write the history of America itself . . . for the Navy is America. This is the people's Navy . . . your Navy!

However you honor Navy Day, keep ever in your hearts a warm feeling of brotherhood for your countrymen who defended the spirit of our democracy upon every ocean in the world.

For a good job well done . . . a salute to the Navy of these United States!
